Specify requirement(s) that each country must meet (select all that are appropriate): 1) Must purchase equipment through FMS Equipment associated with POI; 2) Must be a member of a specific group or coalition Current Allied Countries ; 3) Must have an accepted clearance (must be authorized under an identified general security agreement with the US); 4) May not attend FD3 modules None Associated with ICTL ; 5) Other None Associated with ICTL .

Target Audience: Perform duties in preceding skill level, supervises lower grade Soldiers and provides technical guidance to the Soldiers in the accomplishment of their duties. Perform duties as unit power planner. Perform procedures to determine proper generator selection in order to meet a particular power demand. Trains operators in the proper maintenance and employment of tactical power generation and distribution systems. Repairs/overhauls starters, alternators, generators, fuel injectors, voltage regulators, switches, control circuits, etc.

Total Number of Tasks: 2

- **Training Domain/Location Column** – identifies the training location and the Leadership Domain (Institutional, Operational, or Self-Development) where the task is first trained to soldier training publications standards. If the task is first trained to standard in the unit, the word “OP” will be in this column. If the task is first trained to standard in the training base, it will identify, by brevity code (S-D, INST), the resident course where the task was taught.
- **Sustainment Training Frequency Column** – indicates the recommended frequency at which the tasks should be trained to ensure soldiers maintain task proficiency.
- **Sustainment Training Skill Level Column** – lists the skill levels of the MOS for which soldiers must receive sustainment training to ensure they maintain proficiency to soldier’s manual standards.

Task Number	Task Title	Training Domain / Location	Sust Tng Freq	Sust Tng SI
